

EX.NO:1 IMPLEMENTATION OF TELEPHONE BILL USING CLASS AND OBJECT

program:

```
import java.util.Scanner;

class TelephoneBill {
    int cno;
    String cname;
    int previous, current, minutes;
    String type;
    double bill;
}

public class Main {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        TelephoneBill obj = new TelephoneBill();

        System.out.print("Enter Customer Number: ");
        obj.cno = sc.nextInt();
        sc.nextLine();

        System.out.print("Enter Customer Name: ");
        obj.cname = sc.nextLine();

        System.out.print("Enter Previous Month Call Duration: ");
        obj.previous = sc.nextInt();

        System.out.print("Enter Current Month Call Duration: ");
        obj.current = sc.nextInt();
        sc.nextLine();

        System.out.print("Enter Connection Type (prepaid/postpaid): ");
        obj.type = sc.nextLine();

        obj.minutes = obj.current - obj.previous;

        if (obj.type.equalsIgnoreCase("prepaid")) {
```

```

        if (obj.minutes <= 100)
            obj.bill = obj.minutes * 1;
        else if (obj.minutes <= 200)
            obj.bill = 100 + (obj.minutes - 100) * 1.5;
        else
            obj.bill = 100 + 150 + (obj.minutes - 200) * 2;
    } else {
        if (obj.minutes <= 100)
            obj.bill = obj.minutes * 0.75;
        else if (obj.minutes <= 200)
            obj.bill = 75 + (obj.minutes - 100) * 1.25;
        else
            obj.bill = 75 + 125 + (obj.minutes - 200) * 1.75;
    }

    System.out.println("\nTelephone Bill");
    System.out.println("Customer Number : " + obj.cno);
    System.out.println("Customer Name  : " + obj.cname);
    System.out.println("Call Minutes   : " + obj.minutes);
    System.out.println("Connection Type : " + obj.type);
    System.out.println("Bill Amount    : Rs. " + obj.bill);
}
}

```

Output:

```

Enter Customer Number: 101
Enter Customer Name: Arun
Enter Previous Month Call Duration: 100
Enter Current Month Call Duration: 280
Enter Connection Type (prepaid/postpaid): prepaid

```

```

Telephone Bill
Customer Number : 101
Customer Name  : Arun
Call Minutes   : 180
